

Experience ClickLearn

Mission

We started with a vision of completely rethinking the way learning could be created, maintained, and consumed by corporate employees, from inside their business-critical systems.

Our mission is simple:

To make partners & organizations more successful with their business software investments.

The software is awesome, and we would be lost without it. It has paid for itself 10 times over.

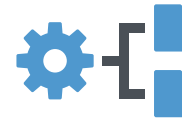

Adrian DeMartino

Commerical Manager at Decon Technologies

Record

Click through your processes in your systems.

Produce

Produce multiple formats simultaneously.

Publish

Distribute to the cloud or on-premise with a single click.

ClickLearn captures complicated work processes in popular business software.

With just a click, you can produce multi-format learning materials, in any language, and publish to a [24/7 learning portal](#).

Platforms

ClickLearn supports the most popular business systems. The unique ClickLearn recording technology adapts to any customization and allows the recording of processes across applications.

Enterprise platforms:

Business applications:

Productivity applications:

Custom applications:

Windows apps

Record inside 90% of all windows applications creating work instructions even outside of your business system.

Web apps

Record your web-based activity with our web connector which covers 90% of all web-based applications.

ClickLearn at a glance

Produce seven learning formats from a single recording.

Auto-translate instructions and video narration into more than 45 languages and dialects.

Turn any process into an on-screen live assistant.

Use Automated Replay to recapture system upgrades and changes to your business processes.

Collect feedback, view ratings, and track learning material usage with the built-in Learning Analytics.

7 formats of learning

ClickLearn automatically produces the right learning format for any training situation.

Online documentation

Step-by-step guides with perfectly cropped screenshots presented in an online structured portal available 24/7 from any device.

Offline documentation

Downloadable instructions as PDF or Word documents for printing and sharing.

Classroom training

Company-branded material in PowerPoint format optimized for classroom training.

Show-me video

Narrated video walk-throughs in the language of your choice.

Try-me video

An interactive simulation of your work environment guiding you through your complex business processes.

Test-me video

Interactive simulations that test your knowledge of your processes without the hints that you get with the Try-me videos.

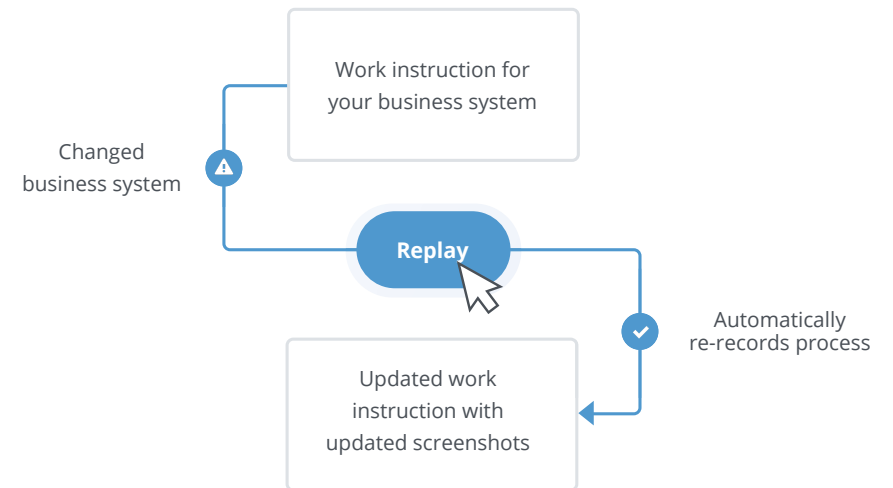

ClickLearn assist

A virtual assistant that guides you through your new or complex processes in your live business system.

Built for change

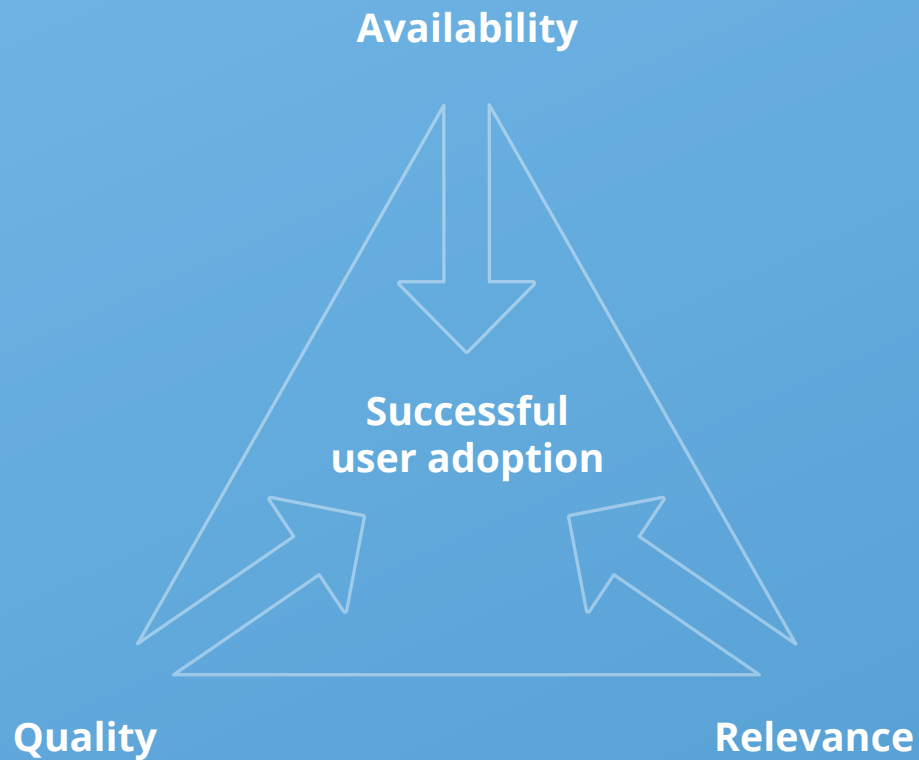

Updating to a new version of your business system has never been easier. Click the Replay button and ClickLearn will automatically update all work instructions to match the new version of your software.

Auto-translate all your learning materials at the click of a button

45 languages and dialects. 100+ digital voices.

Principles of **user adoption**

Availability
